Saturday Enrichment Program - Spring 2018 -

February 24–March 24
9:30 a.m.–12:30 p.m.

Center for Gifted Education
William & Mary

Program Site: William & Mary Mason School of Business
101 Ukrop Way
Williamsburg, VA 23185
Center for Gifted Education

Established in 1988, the Center for Gifted Education (CFGE) at William & Mary is a learning community that values and fosters the talent development process and optimal functioning of high-ability individuals over their lifespan.

Saturday/Summer Enrichment Programs

William & Mary’s SEP is an academically challenging program with an emphasis on inquiry-based learning for students enrolled in grades K-12. The program is not meant to supplant the regular school curriculum; rather, it recognizes the importance of allowing able children to explore additional specialized areas of science, mathematics, humanities, and the arts. Course activities are compatible with the expected achievement of high-ability students at specific grade and age levels.

Behaviors fostered by this program include the ability to:

- apply process skills used in an individual student’s area of interest,
- recognize problems and approaches to problem solving,
- understand and appreciate individual differences, and
- become a self-directed learner.

SEP is one of the precollegiate learner program offerings at William & Mary’s Center for Gifted Education. For more information about this program and other precollegiate programs, please contact the Center for Gifted Education at (757) 221-2166.

PRECOLLEGIATE LEARNER PROGRAMS STAFF

Mihyeon Kim, Ph.D., Ed.D.

PROGRAM TIMELINE

February 2, 2018: Course assignment decisions made; classes that do not meet the minimum enrollment requirement will be cancelled

February 5-9, 2018: Session schedules and information packets emailed to families

February 16, 2018: Deadline for payment of outstanding tuition balances

February 24, 2018: Classes begin

March 24, 2018: Final class
Course Descriptions

Grades K-2

CODE: 18SPR-01
BUDDING BOTANISTS
Instructor: Staff

An intriguing entry in a mysterious journal tells about a special plant that could be used to fuel cars! You are called to be part of an exceptional team of scientists who will continue the research of the journal's author, Professor Blackwell. Through observations, inquiry, and experimentation, we will find out what makes plants grow, how they interact with the environment, and how plants can help solve some real world problems. Can plants be used for alternative energy resources? If you have a green thumb, come design your own terrarium while you learn more about plants as a Budding Botanist!

Grades 3-4

CODE: 18SPR-04
THE RENAISSANCE
Instructor: Ellen Walter

The Renaissance was a period in time between the 14th and 17th centuries in Europe. During the Renaissance artists, philosophers, and scientists studied the Ancient Greek and Romans this study produced a flowering of knowledge in the arts, literature, and the beginnings of modern science. We will start our study in Ancient Greece and Roman times, move through the Middle Ages, and then study the Renaissance. We will learn about society, art, literature, and science from all of these periods with many hands on projects.

Grades 1–2

CODE: 18SPR-02
LEGO WE DO I
Instructor: Tim Beatty

LEGO WeDo is a robotics system that combines science, math, and technology to facilitate hands-on, minds-on problem-solving skills, and creative thinking. Use a computer to program a LEGO robot that uses tilt and motion sensors. Create a crocodile that bites or a bird that dances when it senses motion. No previous experience with robotics or LEGO is needed.

Grades 3-6

CODE: 18SPR-05
LEGO ROBOTICS I
Instructor: Kelly Carpenter

Always wondering how things work? In this course, participants will explore the ever-changing world of robotics. Using the new NXT robots, students will have the rare opportunity to build, program, and test the function of various robots. Students will explore ways to program robots to accomplish given tasks and be there to watch it happen. These aspiring scientists will use problem-solving and critical thinking strategies to take their basic knowledge to new levels. The final products are amazing!

Grades 2-4

CODE: 18SPR-03
ENGINEERING WITH LEGOS
Instructor: Pennie Brown

Using powered Legos and other items, students will learn many new and exciting science, technology, and engineering concepts. Science topics will include the study of magnetism and the six simple machines. Students will learn how a scientist thinks and how to solve problems that scientists face daily. Students will be consistently challenged in problem solving situations that include building a variety of designs and projects that demonstrate the concepts presented.

Grades 4-5

CODE: 18SPR-06
ORION SPACE ACADEMY
Instructor: Eric Hoyt

This is a space exploratory program in which students simulate life in space, design and test spaceship components, test parachutes and gliders, build a payload protection system, go geocaching with a GPS unit, build and fly a bottle rocket, and design a space program. Students will also learn about NASA’s Orion space vehicle and the International Space Station. The activities challenge students to experiment and creatively explore their ideas while learning about simple physics, flight dynamics, and electronics. Together, let's reach for the stars!
Grades 4–5

CODE: 18SPR-07
SCIENCE AND THE ARTS: CRITTER CURATORS
Instructor: Angela White

Explore the world of science and habitats while writing and conducting your own experiments. Express your findings scientifically and artistically through charts, graphs, poems, and drawings. Finally, showcase your work through the weeks as you take on the role of a museum curator.

Grades 4–6

CODE: 18SPR-08
ENGINEERING: IT’S ALL AROUND US
Instructor: Jeff Fry

Engineer, create, and build a variety of engineering projects that will test your skills and abilities. The students will be presented with various problems to solve and will choose from a variety of materials to create their solutions. Possible activities include pneumatic flying vehicles, cardboard bridges; rooftop egg drops; racing vehicles with various propulsion systems; ATVs to navigate a course with sand, rock, and water; and designing catapults. Come prepared to think outside of the box.

Grades 6–8

CODE: 18SPR-09
PRE-MED: DEBATING CONTEMPORARY ISSUES IN MEDICINE
Instructor: Deanna Marroletti

Now that you are sure a white coat with your name in script is in your future, let’s look at some of the recent advances in medicine. Is it all positive, for the betterment of humanity? Are there technologies or research methods that tend to elicit differing opinions on when to perform certain procedures, who should receive treatment, or how test results should be used? Topics may include DNA testing, transplant lists, euthanasia, surrogacy, universal healthcare, and bio-weapons. Students will lead discussions and practice debate skills by considering multiple perspectives. There is no pre-requisite for this class—students need only an interest in medicine and an open mind ready to unpack some complex issues.
Program Information

**Tuition:** The tuition fee is $350 per course. A deposit of $50 must accompany the application packet. Deposits will only be refunded if a course is cancelled.

**Minimum course enrollment:** Approximately one month prior to the start of the session, the program staff will review course enrollment to ensure classes have met the minimum enrollment requirement. Courses that do not meet the minimum enrollment number of 10 participants will be cancelled.

**Class placement and size:** Class size will be limited to a maximum of 18 participants (with rare exceptions) to provide an optimal learning environment. Program staff will not process a participant’s application until all required forms and the tuition deposit have been received. Class assignments will be made once a complete application is received. If a student has selected a course that has already reached its maximum capacity, or has been cancelled due to low enrollment, the student will be assigned to his or her second or third choice. If no alternate courses have been identified, a staff member will contact the student’s parent/guardian to discuss available options.

**Course withdrawals:** Request to withdraw from a course must be made in writing prior to the start of the session. Tuition refunds will be provided for payments made minus the deposit. Refunds will not be provided for withdrawals occurring after the start of the session.

**Dropping off and picking up:** Students must be escorted to and from their classroom. Parents are asked to drop off and pick up their child(ren) from designated classrooms within 15 minutes of the start/end of the scheduled class time and to refrain from sitting in vacant classrooms, hallways, and stairwells. Anyone arriving to pick up a child, including the parent or guardian, will need to furnish a government-issued photo ID. This is a requirement at each pick-up regardless of whether or not the individual has previously picked up the child.

**Permission for emergency medical treatment:** For the safety of your child, parents/guardians must provide an individual health form for each program participant. A new form should be completed with each application packet even if the child has previously participated in SEP. Applications will not be processed unless accompanied by a completed and signed health form.

**Medication:** Program staff may not administer any medication to students, except for emergency use of an EpiPen for students with extreme allergies. If a child requires medication during program hours, a parent must be on site to administer it.

**Faculty:** Courses are taught by a variety of talented instructors, including teachers of gifted and talented learners, graduate students, faculty of William & Mary, and content-area professionals.

**Discipline policy:** The expectation is that students will take responsibility for their own behavior and act appropriately during class to foster a positive learning environment for all students. If a student becomes disruptive, a warning will be issued to the student and parent/guardian on the day of the infraction. If the inappropriate behavior recurs in a second session, the child will be removed from class and may be removed from the program. If a child is removed from the program due to inappropriate behavior, a refund will not be provided.

**Lost and found:** Personal items that are inadvertently left behind by students will be kept at the Center for Gifted Education for 30 days following the conclusion of the session. After this time, they will be donated to charity.
Admission Requirements

Returning Participants
Completed program application form and all required documentation.

New Applicants

1. Test scores
Students who have scored in the 95th percentile or above on a nationally normed aptitude or achievement test are eligible. Application test scores at the 95th percentile or better must be in at least one of the following areas: reading comprehension, vocabulary, language total, math total, math concepts, math problem-solving, science, social studies, or the composite. Contact your child’s school to determine if it has participated in a qualified test and if the scores may be made available to you.

If documented test scores are not available for your child, please contact Dr. Valerie McDonald at (757) 209-8798 or valeriemcdonald2@gmail.com to schedule a screening appointment. Assessments are conducted on Saturdays. Screening is conducted by appointment only and should be scheduled at least one month prior to the start of the program session to ensure results are available prior to the start of classes. Parents/guardians are responsible for the screening cost ($100), which is due at the time of testing.

2. Recommendations
For new applicants, a recommendation from a teacher, principal, or counselor must be included with the application packet.

3. Completed program application form and all required documentation.

SEP PICK-UP FORM

Spring 2018 • Williamsburg, VA

A parent or guardian must complete this form. List below the people allowed to pick up your child from class. Your child’s teacher will only release your child to the people listed on this form. Anyone picking up your child, including yourself, will need to furnish a government-issued, photo ID as proof of identity each time he or she picks up the child.

I give permission for the following people to pick up my child from the Saturday/Summer Enrichment Programs. I understand that a government-issued, photo ID will be required as proof of identity. I also understand that my child will only be released to people on this list who are able to provide proof of identity.

Please print or type names clearly. Be sure to include your own name as well as the names of others authorized to pick up your child. If you need to make changes at a later date, please submit an amended list.

Parent Release Form

Allowing students in grade 7 or higher to walk unattended to the parking lot.

Use the pick-up form above if you want your seventh-grade or older child to be picked up from the classroom. If, instead, you prefer to give permission that allows him or her to walk to the parking lot unescorted, you must complete and sign this optional section.

I give permission for ____________________________________________ to leave the classroom and walk unescorted to the parking lot. I will not hold the class instructor, the Saturday/Summer Enrichment Program, the Center for Gifted Education, or William & Mary responsible in any way for my child’s welfare after he or she departs from the classroom.

SEP INTERVIEW & PHOTOGRAPH
RELEASE FORM
Spring 2018 • Williamsburg, VA

The Center for Gifted Education at William & Mary is constantly striving to have the wonderful projects and experiences students take part in during our programs recognized. To this end, we routinely work with reporters from local news outlets on program publicity. We plan to invite members of the media to visit and engage with the students at some point during the program. We ask your permission as the student’s parent or guardian to interview and take photographs of your child for possible inclusion in press materials. Please indicate your willingness to have your child interviewed and/or photographed by selecting the appropriate statement below.

Please initial and choose only one option below:

_______ I am willing to have my child **interviewed and/or photographed** and to have his or her photo and name included in the local newspaper, the Center for Gifted Education website, text of a William & Mary press release, or photograph caption.

_______ I am willing to have my child **interviewed** and to have his or her name included in the local newspaper or text of a William & Mary press release.

_______ I am willing to have my child **photographed** and to have his or her name included in the local newspaper, text of a William & Mary press release, or photograph caption.

_______ I prefer that my child not be interviewed or photographed.

Child’s Name (please print): __________________________________________________________

Parent/Guardian’s Name (please print): ________________________________________________

Parent/Guardian’s Signature: ____________________________________ Date: _______________

Please note that until the time of publication, we are unaware of which class(es) and/or students will be included in press materials.
SEP INTERNET ACCEPTABLE USE PROCEDURES & AGREEMENT

Spring 2018 • Williamsburg, VA

The Internet is an electronic highway connecting millions of computers and computer users from all over the world. The Internet offers:
- electronic mail communications with people from all over the world,
- access to many library catalogs from all over the world,
- information and news from a wide variety of electronic sources,
- public domain software and shareware of all types, and
- access to world wide discussion groups.

Parental Permission
- Students under the age of 18 years must have a parent/legal guardian sign this form before the first use of the Internet.

E-mail
- E-mail accounts will be assigned to students only for the duration of the teacher-directed project.
- Hate mail, harassment, discriminatory remarks and other inappropriate behaviors are prohibited on the network.
- Receipt of inappropriate mail should immediately be reported to a teacher and to the SEP staff.

Copyright and Citations
- Any copyrighted materials are subject to the Fair Use provision of copyrighted materials as it relates to education.
- Internet materials used in reports or other documents must be cited. If there is no direct citation, the Uniform Resource Location (URL) must be cited.

Undesirable Materials
- Students, teachers, and assistants in the SEP program must accept responsibility for restricting access to undesirable materials.
- Students who gain access to undesirable Internet materials must report this material to their teacher.
- Teachers who gain knowledge of undesirable Internet materials must report this material to the SEP staff at the Center for Gifted Education.

Games
- Games may not be downloaded from the Internet without approval from the teacher or the SEP staff.

Listservs
- Listservs may not be subscribed to without approval from a teacher or the SEP staff.

Commercial Use
- Commercial use of the Internet by individuals participating in SEP is forbidden.

Network Etiquette:
You are expected to abide by the general accepted rules of network etiquette. These include, but are not limited to, the following:
- Be polite. Do not send abusive messages to other users.
- Use appropriate language. Do not swear, use vulgarity or any other inappropriate language. Illegal activities are strictly forbidden.
- Do not reveal your or anyone else’s personal address or phone number.

Please note that e-mail is not guaranteed to be private.

I agree to the above stipulations and understand that any misuse or abuse of the Internet may result in the suspension or revocation of my Internet account.
