

# 2019 LAW-RELATED COURSES FOR HIGH SCHOOL STUDENTS

**INTERESTED IN LAW, TECHNOLOGY, OR STARTING A  
BUSINESS? EXPAND YOUR LEARNING WITH US!**

Join Professors **Fred Lederer** and **Iria Giuffrida** for a variety of interactive and dynamic law courses focusing on legal systems, emerging technologies, contracts & torts, including:

## Intro to Law & the U.S. Legal System

This course explains what the law is, how it is made, and how judges can change it. Students will learn how the judicial branch interprets, creates, and modifies legal rules.

## Intro to Artificial Intelligence & the Law

This one-of-a-kind program provides an introduction to selected legal issues that we may face as AI, the Internet of Things and other groundbreaking technologies advance.

## Intro to Negotiations

This dynamic class takes students through the basic elements of negotiation and how these skills are put into practice through lecture and interactive scenarios.

## Intro to International Law

This course offers an introduction to the basic concepts of public and private international law, including key differences, basic concepts (including the UN), and issue resolution.
