

Virginia Peninsula from a Watershed Perspective: Sections 2: What do you know sheet.

Please write in a short answer and bring your answers to class.

1. Name six major water related issues that the Virginia Peninsula faces.
2. Of these threats which one would you think is the largest threat?
3. Which of these threats may, if not mitigated cause the greatest damage to the Virginia Peninsula?
4. Which of these threats, at least in part, can be managed within the local area?
5. Of the six major water related issues that the Virginia Peninsula faces, which have both anthropogenic and natural causes?
