SOE Values

Statement of Values

Accomplishing our mission requires that the entire community work together as stewards of the core values that infuse our collective effort:

Advocacy

We create an open academic environment wherein we apply research-based solutions to advance systemic change to address persistent problems of a diverse society.

Compassion

We seek opportunities to understand and value the experiences of all members of our community as we work toward our shared impact priorities.

Engagement

We value and credit the process of community engaged teaching, research & service and actively seek opportunities to collaborate to advance the mission of the SOE.

Impact

We promote learning in others, and ourselves, to prepare educators and scholars who make a positive difference in schools, communities, and the world.

Inclusivity

We respect the dignity of every human being and work collaboratively to create a culture of invitation wherein all members of this community are seen and valued.

Integrity

We actively listen to and communicate precisely with all members of this community in a manner that values all perspectives and contributions as we advance professional discourse and interactions with fidelity.
