Tschannen-Moran has most cited article in Journal of Educational Administration's 60th anniversary edition

The Journal of Educational Administration, the first international journal in educational leadership, is celebrating its 60th anniversary by reprinting the ten most-cited articles from its six decades of publication. Megan Tschannen-Moran, professor of education, is highlighted as the author of both the top and fourth-most cited article. [More](#).

FROM THE DEAN

I love summer at the School of Education. We welcomed an enthusiastic new cohort of master's students in our teaching programs — dynamic future teachers who are eager to make an impact on students and families. Our Executive Ed.D. students will be on campus for their summer residency soon, collaborating and connecting in person.

We've also had the joyous sound of children's voices in the building, as research-driven collaborations with the local community bring students to campus for summer camps. Their energy and enthusiasm remind us all why we do what we do.

I hope each of you has an opportunity to recharge this summer — and to find new ways to reconnect with the joy you find as an educator.

— Dean Rob Knoeppel
