FROM THE DEAN

Next week, we celebrate our third annual Education Week in the School of Education. The theme for this year's event is Strong & Just Institutions. As educators, our profession forms the foundation for the advancement of democratic principles. Indeed, education is the conduit for the provision of equality of educational opportunity and economic mobility. During Education Week, we renew our commitment to advancing the principles of equity and justice, especially for communities that have been underserved and we take the opportunity to express our gratitude for all educators who advance this important work.

I hope that each of you will join me in actively thanking an educator, especially those who have been an important part of your lives, and that you'll find time to celebrate with us next week.

— Dean Rob Knoeppel
